**Release date:** Immediate

**Contact(s):** Nicole Brooks, Park Safety Officer

**Phone number:** 508-349-3785 x 242

**Date:** January 12, 2005

### Cape Cod National Seashore Safety Hazard Reporting System

Cape Cod National Seashore (CACO) is committed to providing a safe place to work and visit. Despite the seashore's efforts to remediate all safety hazards in the park, visitors to Cape Cod National Seashore may be the first to encounter such a hazard. Cape Cod National Seashore now has a Safety Hazard Reporting System that visitors can use to report hazardous conditions they might find in the park, such as a downed tree on a trail or a loose board on a park bench.

Through the Cape Cod National Seashore's Safety Hazard Reporting System, visitors can quickly and conveniently report safety hazards through email to the Park Safety Officer. To report a safety hazard click on the CACO Hazard Reporting System link located on Cape Cod National Seashore's website: <http://www.nps.gov/caco>, or address an email to: [nicole\\_brooks@nps.gov](mailto:nicole_brooks@nps.gov). People utilizing this system should be specific in their message describing the hazard, location of the hazard, and any other pertinent information.

Every report will be reviewed when received. The hazard will then be stabilized or resolved depending on the nature of the hazard and the scope of the remedy. Visitors are encouraged to provide contact information in the body of their email in case more information is needed to locate and/or fix the problem. As the park addresses your report, visitors will be kept apprised of the actions to stabilize or mitigate the hazard.

If problems are encountered with the CACO hazard reporting system and assistance is needed, please contact Park Safety Officer Nicole Brooks, at 508-349-3785 x 242.

**If a life-threatening emergency is encountered while visiting the park, please go to the nearest phone and dial 911.**

Thank you for making Cape Cod National Seashore safer for everyone!
